This article delves into the multifaceted arrangement, assessing its individual components and the overall brilliance behind its creation.

The song's extraordinary arrangement is best understood by breaking it down into its individual movements. The introduction, a capella section, sets the uneasy tone. The harmonies are full, showcasing Freddie Mercury's outstanding vocal capacity and the group's accurate vocal blending. This section builds steadily, creating a sense of anticipation before the transition to the rock section.

This abrupt transition to a hard rock style is a masterstroke of arrangement. The guitars, played by Brian May, appear important, providing a driving rhythm. This section isn't merely a straightforward vocal performance; it's a carefully crafted sonic composition. The crescendo and decrescendo are expertly handled, leading to a moment of powerful feeling release.

The song then moves back to the hard rock style, reintroducing elements from the earlier section but with increased energy.
