FAQ: Frequently Asked Questions about the ix35 Radio

Q1: My ix35 radio isn't displaying the correct time. How do I set it?

A1: The process for setting the time varies slightly depending on your radio model. Generally, you'll need to access the settings menu on the radio's display screen (often via a "Setup" or "Settings" button). The menu will guide you through the steps of setting the time and date. Refer to your vehicle’s owner's manual for precise instructions.

Q2: Can I upgrade the radio in my ix35?

A2: Yes, it's possible to upgrade your ix35's radio, but it requires some technical knowledge and might void your warranty. Consult a professional car audio installer to ensure compatibility and proper installation.

Q3: My radio keeps losing its presets. What should I do?

A3: This is likely a problem with the radio’s internal memory. Try disconnecting the car battery for a few minutes (to reset the system) and then reconnect. If the issue persists, it might require professional repair.

Q4: How do I change the language on my ix35's radio display?

A4: Similar to setting the time, access your radio's settings menu (often through a "Setup" or "Settings" option on the screen). Look for a language selection option within the settings.

Q5: My Bluetooth audio sounds distorted. What could be causing this?

A5: Distorted audio over Bluetooth might be due to interference, low signal strength, or a problem with your paired device. Try moving closer to the car’s Bluetooth receiver (often within the head unit), restarting your device and the car's system, or even re-pairing your device.

Q6: Where can I find a physical copy of the ix35 radio manual?

A6: The official ix35 radio manual (or more accurately, the infotainment system section of the vehicle's owner's manual) should be in your vehicle's glove compartment or the paperwork provided with the car. You can also often download a PDF version from the Hyundai website, searching for your specific vehicle's model and year.

Q7: My radio has a CD player; how do I use it?

A7: Insert the CD into the designated slot. The radio should automatically detect and play the CD. You'll usually be able to control playback (play, pause, skip tracks) using the radio's controls.

Q8: The USB port in my ix35 isn't working with my flash drive. Why?

A8: Check that the flash drive is formatted correctly (FAT32 is generally recommended for car audio systems). Some older flash drives may not be compatible. Try a different flash drive to determine if it is a compatibility issue or a fault with your USB port.
