Before you begin, gather your materials: your Moon Loom, rubber bands (various colors!), and a hook (usually included with the loom).

Step 1: Preparing the Loom: Ensure the Moon Loom is properly assembled. Most looms have a simple, clip-together design.

Step 2: Initial Rubber Band Placement: Place a rubber band around two opposite pegs on the loom, creating a figure-8 pattern. This forms the base of your bracelet.

Step 3: Adding More Rubber Bands: Continue adding rubber bands, one at a time, following your chosen pattern. Many patterns involve placing bands around pairs of pegs.

Step 4: Weaving and Tightening: Use the hook to weave the rubber bands together, following the specific instructions for your chosen pattern. Maintain consistent tension throughout to ensure a well-crafted bracelet.

Step 5: Completing the Bracelet: Once the desired length is reached, follow the instructions to remove the bracelet from the loom. This usually involves carefully releasing the rubber bands from the pegs.

Step 6: Finishing Touches: Secure the ends of the bracelet to prevent it from unraveling, often using a simple knot or a special clasp.
